MARCH 2015

Toms River, NJ

Impedance: Topic Of The March Meeting

We talk about the impedance of antennas, microphones, cable, headphones, etc. Let's look closer and get a clearer understanding of some of the fundamental concepts of alternating current, SWR, PEP and ALC.

John Roberts, KQ4WR will share some insight into the world of electronic circuit design at our March meeting.

Birthdays And Anniversaries

Tom Chicino KC2RSE

Ira Dechowitz N2RKV

Fred Fanizzo K2KHH

John Roberts KQ4WR

Susan Graber

Sarah Punderson

We don't have any March wedding anniversaries on our list. If we missed your birthday or anniversary, we're sorry, and please let us know. We need only to know the month, not the year or day.

OUR NEXT MEETING:
Thursday MARCH 5 at 7:00 PM
Bldg A, Meeting Rm. #1
Holiday City South Clubhouse
Santiago Drive at Mule Road
Toms River, NJ

Dues Are Due

We painted the "Duesy" bright red to remind you, in case you haven't paid your dues this year. Our club needs members' dues to pay for our liability insurance, donation to show appreciation for use of the clubhouse, Field Day reservation, refreshments, postage, corporate registration fees, and other items. Dues are \$25 per calendar year. You can mail a check payable to Holiday City Amateur Radio Club to our Treasurer:

Larry Puccio

22 Sabinas St.

Toms River, NJ 08757-6153

Alternatively, Larry will accept cash payment at the club meeting.

Holiday City Amateur Radio Club VE Session Report

Wednesday, February 11, 2015 we held our monthly VE testing session. This month one of our club members, Tony Kuzinski KD2GSO, passed his General class test. Tony became a ham radio operator last year on June 18th 2014 passing the Technician grade exam. Tony studied the General class material, took some sample tests during the time after he got the Technician license, and successfully past the General class test at our test session. Congratulations to Tony.

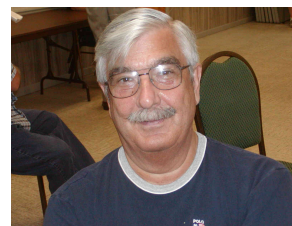

Of our 31 club members Tony now has brought our General/ Extra class membership to 26.

73,

Larry,

K2QDY

ARRL VE liaison

Tony Kuzinski

Ocean County ARES® News – March, 2015

The next meeting of Ocean County ARES will be on March 18th, 2015 at the Ocean County EOC, Robert J. Miller Airpark, Berkeley Township. The meeting starts at 7:00 PM. There will be no training net held that evening due to the meeting. This is a replacement meeting to take the place of the February 18th meeting which was cancelled due to bad weather.

I would like to welcome two new members of Ocean County ARES, John – N2PHX and Carol – KD2DLY.

There is a very good article on battery usage during ARES operations in the March 2015 QST, Page 87 under Public Service, article titled "Power to the Public Service Operator". I encourage everyone to read it.

Keith, KC2OON, has been continuing to work on the Ocean County ARES "Ratreflector" and it will be monitored during weekly training nets. If you cannot make the voice net, then I encourage you to check into the Ratreflector Net. For all nets just click on the "Join Channel" icon under "Chat" and enter NET in all caps. This channel will always be used for nets, either training or actual. If you have any questions regarding the setup for the Ratreflector, Keith has several documents on the OCARES Yahoo Group under the "Files" section in the "DSTAR" folder.

An application for a 70 cm pair has been submitted to ARCC for a Yaesu Fusion DR-1X repeater at the Ocean County 911 Center tower on Chestnut Street in Toms River. The application included coordination for both analog and digital emission and is one of the first to be handled by ARCC under this double heading. While analog repeaters use PL or DCS to avoid interference with adjacent repeaters, digital uses no such coding and interference between adjacent repeaters is a whole new ballgame and requires careful evaluation.

Like everyone else, I've had my fill of cold weather this Winter, but there is an encouraging side to it. If we get several consecutive days of zero degree weather, the larvae of Lyme Ticks and Pine Beetles will be destroyed.

73 de WX2NJ
Bob Murdock
Ocean County Amateur Radio Emergency Service® EC

Announcing The Spring Luncheon

On April 8, we'll have our Spring Luncheon. Unless there's a change in plans, it will be at the Fusion Buffet as usual. The Fusion Buffet is located in the shopping mall at the intersection of Route 9 and Route 571, between the Pathmark and the Home Depot. We always have a good time at these events, so please mark your calendar.

Some Favorite Ham Radio Websites

www.hornucopia.com/contestcal/contestcal.html : Ham radio contest calendar.

www.hornucopia.com/contestcal/weeklycont.php : For contest information for 8 days.

www.dxscape.com : Lists of current dx QSOs, sorted by band.

www.ng3k.com/Misc/adxo.html : List of planned DXpeditions, and other scheduled DX operation.

www.arcc-inc.org : Lists of repeaters in Southern NJ and Eastern PA.

www.metrocor.net : Lists of repeaters in Northern NJ and NYC metropolitan area.

www.arrl.org/incoming-qsrl-service : How to receive QSL cards from DX stations.

www.arrl.org/outgoing-qsrl-service : How ARRL members can economically send QSL cards to DX stations.

<http://wireless2.fcc.gov/UlsApp/UlsSearch/searchLicense.jsp> :

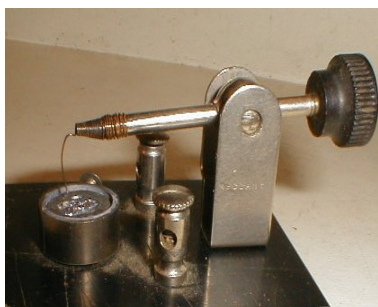

www.QRZ.com : Gives the name and address of nearly any ham in the world, often with much more information. Also can be used in reverse to find, for example, all hams in a particular zip code.

How To Search The ULS

The official FCC Database. To see if a particular person has a license, enter just the last name and zip code. To see who has a particular callsign, enter just the callsign. If the license you're searching for is marked "Cancelled", look up the operator's name and address to see if it's been changed to a vanity call.

Some Good DIY Advice

If you're new at electronic kit-building, take time to read the "Kit Building Guide" at the Ramsey Electronics website before you start.

Coin Cell Code

Coin cells are identified by chemistry and size. The chemistry code is important, as it determines the voltage and other important characteristics.

BR is 3V carbon monofluoride-lithium

CR is 3V manganese dioxide-lithium

LR is 1.5V alkaline

PR is 1.4V oxygen-zinc (High energy for hearing aids. Cell is inactive until the vent is unsealed. Then it dies in 3-4 weeks.)

SR is 1.58V silver oxide-zinc

If there are 4 digits, the first two is the diameter in millimeters.

If there are only 3 digits, the first one is the whole-number part of the diameter in millimeters.

The last 2 digits is the thickness in tenths of millimeters.

For example, CR2032 means 3V lithium 20mm across, 3.2mm thick.

W indicates that it is designed for long life, low current use in watches.

Internet and e-Mail Address Links

Internet addresses and most call signs in The SKYHOOK are hyperlinks to web sites or email addresses. If clicking on the link does not bring up what you want, copy the address and paste it into your search box.

Our VE Crew

Murray [KD2IN](#), John [K2JWH](#), Ed [W1EAP](#), Larry [K2QDY](#), John [KQ4WR](#), Stan [KB2PD](#), Steve [N2WLH](#), Kevin [W2FA](#), Walter [KC2LFD](#), Paul [N2QXB](#), Larry [WA2VLR](#).

License exams are given at 7pm on the second Wednesday of each month at Holiday City South Clubhouse, Bldg A, which is at the corner of Mule Rd. and Santiago Dr. Call Larry Puccio, K2QDY, at 732-349-2950 for information.

Directions: From either Route 37 W or Davenport Road, take Mule Road to Santiago Drive. Turn into the parking lot from Santiago Drive, and park near the pool. Enter the building nearest the intersection.
